

WP2, A2, Setting expertise requirements for ECOLABNET

What is required by a partner in ECOLABNET

The needed requirements for an expertise area.

Partner KUT	Expertise Biobased materials and Thermosets
	Content requirements
Academic	<ul style="list-style-type: none">- Must have education in chemistry or chemical engineering in the field of polymers- Must have an understanding and be able to develop green chemistry and green engineering concepts- Must have experience on design, synthesis, characterization, modification and investigation of properties of bio-based polymers, biodegradable polymers, and biocomposites from renewable resources- Must have practice in projects related with thermosets
Societal	<ul style="list-style-type: none">- Understand about eco-innovations
Business	<ul style="list-style-type: none">- Be capable to develop strategies and business models related with eco-innovations in thermosets area
Needed infrastructures	<ul style="list-style-type: none">- Be able to provide high-quality R&D&I services in eco-innovations and thermosets areas
